

# ECOMMERCE

All seek to make their logistics operation more efficient and lower their costs, but the biggest challenge is to do so without decreasing the customers satisfaction levels .  
Some current issues are:

- New addresses to be delivered each day
- Need to be able to offer customers more time windows and comply with them
- Lack of visibility for customers
- Scarce information about the delivery
- Reduce last mile transportation costs

# BENEFITS OF USING DRIVIN

- ✓ Facilitates geo-referencing of addresses
- ✓ Ensures the visit to 100% of your clients
- ✓ Reduce the amount of miles traveled
- ✓ Deliver visibility to your customers at all time
- ✓ Receive reports on the progress of your operation
- ✓ Obtain visibility of your entire fleet and check the status of each delivery (photographs, signatures, comments)

Customers expect to receive their products under the conditions that were requested and have visibility throughout the course of the operation.
