

# TRANSPORT

All transport companies, regardless of the size of their fleet, present the same challenges:

- Need to consolidate loads from different customers
- They need to maximize the use of their vehicles
- They need to incorporate multiple capacities (tons, pallets and sq ft) when planning
- Must comply with time windows
- Need to have a more control over the drivers and the deliveries

# BENEFITS OF USING DRIVIN

- ✓ Maximize fleet usage
- ✓ Reduce miles traveled
- ✓ Obtain full visibility over your fleet
- ✓ Receive reports of the progress of your daily operation
- ✓ Route planning includes time spent driving and all restrictions (time windows, service times etc)
- ✓ You can download online information about your deliveries (photographs, signatures, comments) and then send them to your customers

It is no longer just a matter of moving merchandise, the focus is on meeting the growing demands of consumers. The challenge is to be able to balance the needs of your customers, with your resources and do it in the most efficient way possible
